Yes, sorry about the confusion on the date. I'm going to plead an early Monday morning as my excuse.

Hi Jennifer,
I assume you meant August 29, not September. I would be glad to talk to the KBIC representatives about our role. I left a message with MDEQ, to see if they are available.

Thanks.

Laura

Laura,
KBIC would be available on September 29th at 10:00am (eastern) for a conference call. In terms of MDEQ's participation, possibly they could join the call at the beginning to (1) provide an overview of the permit process, and (2) explain the proposed new types of fuel proposed by the company, the corresponding changes to emissions, and control strategies. After that, KBIC would like to talk one-on-one with EPA about our role and working with the Tribe.

Could you determine if MDEQ is available at that time? I will work on a conference line for the call and will forward that information.

Thanks,

Jenny
